LONG BEACH AT A GLANCE

PARADISE AT YOUR DOORSTEP

Long Beach has a fantastic coastline that stretches over 7 km between Famagusta and Boğaz village. It is located 15 km from Famagusta, which is only a 10-minute drive. It has become one of the most popular beaches in Northern Cyprus for its unique golden sand, long coastline, and crystal clear sea. The beach has recently been developed with a new pedestrian walkway, bicycle path, children's play area, and outdoor gym. There are many alternatives for fans of recreational activities such as windsurfing, paragliding, scuba diving, and many others. Nowadays, Long Beach is at the stage of dynamic development. Soon there will be new sports courts, cafes, recreational parks, and an amphitheater to increase the fun and enjoyment of this unique and popular area.

LONG BEACH AND BEYOND

From Yeşilırmak Village in the west to the Monastery of Apostolos Andreas in the east, every moment you spend in North Cyprus, a hidden paradise, will create unforgettable memories for you. Undoubtedly, North Cyprus deserves its reputation as the pearl of the Mediterranean. The island's hospitable, smiling, and friendly people will always greet you and do all they can to help you. The island's natural beauty, lovely climate, warmth and generosity of the Turkish Cypriot people, and abundant fresh food make Northern Cyprus an unspoiled and non-commercialized haven. There is virtually no crime to speak of, and the hospitality, politeness, and generosity of the Turkish Cypriots as well as living to the fullest with so much joy, are only a small part of daily life.

"OTHELLO CASTLE: A FORTRESS STEEPED IN LEGEND"

Othello Castle, also known as Othello's Tower is in Famagusta, Cyprus. Built by the Lusignans in the 14th century and later modified by the Venetians, the castle was named after a Venetian governor in 1506. It is believed that Shakespeare's play "Othello," written around 1603, derived its name from this castle.

"OTTOMAN LEGACY: LALA MUSTAFA PAŞA MOSQUE"

The largest medieval building is the Lala Mustafa Paşa Mosque in Famagusta, Cyprus. Originally a Catholic cathedral, it was converted into a mosque after the Ottoman Empire's conquest in 1571 and remains one.

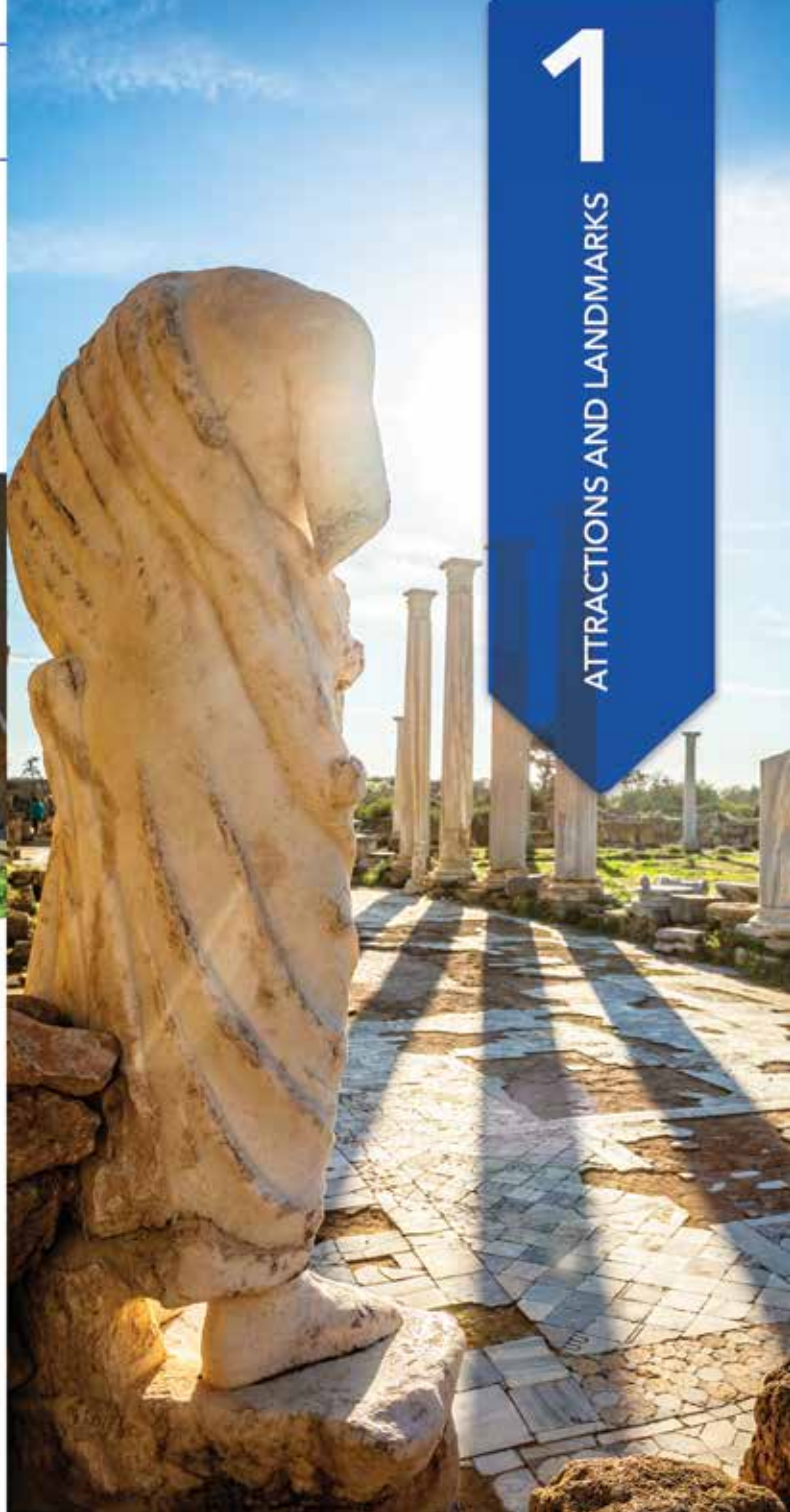

"LEGENDS OF SALAMIS ANCIENT CITY"

Salamis, an ancient city since 1100 BC, became Cyprus' capital. It endured occupations by the Assyrians, Egyptians, Persians, and Romans. The archaeological site covers a square mile along the coast, with unexcavated areas surrounded by a forest of mimosa, pine, and eucalyptus trees.

"ST. BARNABAS CHURCH: A SACRED HAVEN OF SPIRITUAL SERENITY"

The Monastery of St. Barnabas, located near the Royal Tombs on the opposite side of the Salamis Famagusta road is distinguished by its two large domes. It was built to honor Cyprus' prominent saint, closely associated with spreading the Christian message after Christ's death.

1
ATTRactions AND LANDMARKS

"APOSTOLOS ANDREAS MONASTERY: A SACRED RETREAT"

Apostolos Andreas Monastery, nestled in Cyprus' northeastern tip is a revered religious site. Believed to house Saint Andrew's remains, it draws pilgrims from around the world. With exquisite Byzantine architecture and a tranquil ambiance, the monastery invites contemplation. Situated atop a cliff, it offers awe-inspiring coastal vistas. Despite its remote location, the monastery's sanctity and allure make it a must-visit for those seeking ancient traditions.

"UNEARTHING ANCIENT WONDERS: THE ENIGMATIC İNCİRLİ CAVE"

The cave takes its name from the nearby healing fig tree. In summer, visitors may find healing figs on the lower branches if they're quicker than the locals. Caves served as early shelters and artistic canvases for humans, depicting their world through inscriptions and paintings. İncirli Cave showcases the mysterious and awe-inspiring world of caves for curious explorers. Countless undiscovered caves might await in the mountainous terrain of North Cyprus, ready to be discovered.

"MAJESTIC KANTARA: A CITADEL WITH A VIEW"

Kantara Castle is a castle in Northern Cyprus. The exact date of its construction remains unknown, the most plausible theory being the Byzantine period. It combines Byzantine and Frankish architectural elements, became derelict in 1525, and was dismantled in 1560. It gave its name to the nearby Kantara monastery.

"TASTE OF TRADITION:

TRADITIONAL TURKISH CYPRIOT DELIGHTS"

The culture of a region arises depending on many factors. The living conditions and standards, lifestyle, language, religion, race, education, and even a region's climate fundamentally affect the society's culture. The culinary culture is one of the areas in which we can see the influence of these factors most clearly. The culinary culture of North Cyprus has been shaped by various factors, such as the civilizations that ruled the island throughout history, the vegetation, and the climate of the region. This is the case for all societies; therefore, to understand the culture of a society, you must first understand and experience the region's cuisine.

For this reason, you should taste North Cyprus's traditional flavors during your trip. Each may bear the mark of a different civilization and history and has a different story. If you are lucky, you may meet someone on the island who will tell you these stories. The number of flavors we recommend you try in Northern Cyprus today is relatively high. You can understand and appreciate the cultural richness of this seemingly small region from its food. Let's briefly discuss the flavors you must try when visiting Northern Cyprus. This way, you would know exactly what to try without wasting time on the island, and you can enrich your wonderful holiday experience with these magnificent flavors.

LEGAL ADVICE

As the legal system in North Cyprus is based on that of the UK, the whole process of buying property in North Cyprus is fairly simple. All legal documents are also available in English, and a wide range of highly regarded solicitors in North Cyprus are bilingual in English and Turkish. Once the purchaser has decided on the property, the purchase process can be completed in a very short period of time. Hiring a solicitor at this point is essential. The solicitor will be responsible for informing you and providing you with all documents relating to taxes, applications, and processes from the time of sale to the transfer of the title deed of the property you purchase. Furthermore, the solicitor will also deal with processing your permissions to purchase as a foreigner by applying to the appropriate Government Offices and will follow up on your application to ensure their completion. The solicitors in North Cyprus can be communicated via e-mail, fax, and phone. Thus, constant correspondence can be provided throughout the purchase process of a property. Moreover, a property purchase may be completed abroad if the solicitor has been granted the Power of Attorney to act on your behalf.
